

Starsys Carts — Security Options

Mechanical Keylocks

The new M300 Series Keylocks have an "Ignition-Style" design to protect keys from bending or breaking. Mechanical keylocks are a good choice for all kinds of applications and work on all types of units and accessories — carts, cabinets, drawers, doors and wall cabinets. They are available as primary locks or as backups for other types of locking systems. Each lock includes a set of two keys. Extra keys available upon request.

M300 Series Keylock

EPBL Lock

Electronic Push Button Locks ("EPBL" Locks)

The "EPBL" Lock is a simple push-button, battery-operated 4-digit code lock with a 10-digit push button face and 10-user programmable PIN numbers. Correctly entering a 4-digit code will allow a simple lock latch to be turned for access. Master, Sub-Master, User and Single Use functions. Power: (2) AAA Batteries.

Electronic Touchpad Locking System

Our most advanced full-feature keyless electronic drawer locking system designed for use on single-, double- and triple-wide carts in heights from 36" to 48" tall.

Features:

- 2,000 User/Supervisor Codes
- Auto-relock with Motion Sensors
- USB Port for Audit Access
- Proximity & Magnetic Card Reader Options
- User Management/Audit Trail Software option
- Multiple Bay Security

Hinged Push-Button Lockbars

These versatile push button lockbars can be used to lock both drawers and doors. Because the push button mechanism is purely mechanical, no wiring, electronic or batteries are required. Each lockbar includes a backup M300 series keylock, 2 keys, and a passive security locktab (security seals ordered separately: LEC9900A = Bag of 100).

Tamper-Evident Locks

Hinged Lockbar

Tamper-Evident (Passive Security) Locks

Provides passive security for each drawer individually. Quick visual confirmation of broken seals indicates which drawers have been opened. Includes factory-installed lockbar, drawer locktabs permanently riveted to each drawer, and 100 security seals.
