

Solutions That Move You. Mobile, Modular, Metro.

Starsys Stationary WorkCenters

Starsys WorkCenters are designed to be a fully integrated, fully adaptable, modular system. WorkCenters can be stand alone products or can be a configured section within a larger product configuration. WorkCenters combine valuable lower storage areas with finished modular countertops to offer a complete storage and work area solution. Starsys WorkCenters are made up of two key components: base units and countertops. Understanding how these two elements work together is the key to understanding the Starsys WorkCenters line. While sections of Starsys WorkCenters can be configured into many physical combinations, these sections are typically divided into two categories: “straight run” or “corner” configurations.

Working Heights: Starsys WorkCenters are available in the following working heights: 30" (762mm), 33" (838mm), 36" (914mm), 39" (990mm) and 42" (1067mm). Within each working height there is up to 2.5" (64mm) of additional height adjustment via the four adjustable leveling feet in each base unit.

Starsys Base Units

Base units are the products that provide valuable lower storage areas, as well as providing the necessary support for countertops. Base units are the most critical part of a configuration with countertops. Their total combined length and placement will determine the length of the associated countertops in the design. Their placement will determine the placement and size of necessary kneewells and provide support for valuable corner work areas. All Starsys base units are available in light taupe but have the flexibility to be accented with various door & drawer handle colors. Countertop color selection and cove base color selections may be used to accent the base unit color.

- Microban® antimicrobial product protection inhibits the growth of mold, mildew, and bacteria keeping the surface area “cleaner between cleanings.”

System Widths: Base Units are available in Single and Double widths.

System Heights: Base Units are designed to work with the following nominal countertop heights: 30" (762mm), 33" (838mm), 36" (914mm), 39" (990mm) & 42" (1067mm)

Valance Kit

30° Kneewell Bracket with Pencil Drawer Option

Countertop Support Brackets:

The counter-to-counter bracket allows a countertop adjacent to a WorkCenter section with base unit to be supported at the same working height without the need for an additional base unit. The offset counter bracket allows for similar configurations but accommodates change in the working heights by dropping the adjacent countertop by 3", 6", or 9" (76, 152, or 229mm) as required by the application.

Base Unit Trim Kits

Description	Cat. No.
